SYNOPSIS OF THE MAIN PROJECT

Name of the Student	SHAFNA SHAKEER S M
Batch & Roll Number	MCA B - 41
Contact Number & Email id	8590414618 Shafnasm20@gmail.com
Name of Project Guide	Dr . Rakhi Venugopal
GitHub ID	https://github.com/shafnashakeersm
Project Title	FISAT GATEWAY MANAGEMENT SYSTEM
Area of the Project	Web Application and Mobile Application
Date of Submission	31/12/2024

Description of Project:

The **FISAT Gateway Management System** is a digitized solution aimed at transforming the current manual system of managing gate-related activities in our college into an efficient, centralized, and secure platform. This project addresses the challenges posed by the traditional paper-based record-keeping method, ensuring accurate, real-time updates and improved accessibility. The FISAT Gateway Management System will replace the manual processes with a fully automated, digitized platform using the MERN stack (MongoDB, Express.js, React.js, Node.js) for the web application and React Native for mobile accessibility. This System will revolutionize the way our college handles gateway operations, ensuring efficiency, accuracy, and enhanced security.

Front End & Back End Tools

FrontEnd : React.js,React Native
BackEnd : Express.js,Node.js
DataBase : MongoDB
